

Identify, Track and Manage Regulatory Impacts

- ✔ **Structured identification and management of regulatory changes with business, compliance and risk impacts.**
- ✔ **Integrate Regulatory Change Content and monitor business impacts with RSA Archer's Corporate Obligations use case.**
- ✔ **Regulatory content, rules library and regulatory change information is received via data feeds from Wolters Kluwer, and other providers if desired.**
- ✔ **Change is mapped within the system to determine which products, processes, and controls may be impacted.**
- ✔ **A change event is then created in the RSA Archer to facilitate analysis and actions to drive closure.**
- ✔ **Regulatory impacts and necessary changes are tracked from the central RSA Archer leveraging reporting, dashboards, alerts and notifications.**
